DETAILED ACTION

Status of the Application

1. Receipt of Applicant's Remarks and Arguments filed on 14th August 2007 is acknowledged. However, the arguments for the rejection are not found persuasive and as such, the following rejection has been maintained.

Response to Arguments

2. Applicant's arguments filed on 14th August 2007 have been fully considered but they are not persuasive.

The thrust of the applicants' arguments is that **Ojima et al** literally disclose pentafluoroethyl and alpha-pentafluoroethyl acrylic acid, the reference fails to teach or suggest the preparation methods or physical properties of the compounds. Applicants' argued that the reference discloses the respective physical properties and preparation methods of perfluoromethyl and perfluoropropyl, but not those pentafluoroethyl.

The examiner does not find these arguments persuasive. Applicants' claims are directed to a compound represented by the general formula (I) as recited in claim 1, and the applicants are not claiming the preparation methods or physical properties of the compound. **Ojima et al** clearly disclose the alpha-pentafluoroalkylacrylic acid, which anticipates the applicants compound. Examiner agrees that reference does not show the preparation of alpha-pentafluoroethyl lacrylic acid, however the reference showed the preparation of alpha-pentafluoromethylacrylic acid and alpha-pentafluoropropylacrylic acid, which are adjacent homologs of applicants compound.

Art Unit: 1621

Also the reference clearly showed the examples of the compounds, which includes alpha-pentafluoroethyl lacrylic acid.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 1 is again rejected under 35 U.S.C. 102(b) as being anticipated by **Ojima et al** (US 4,581,452) for the reasons of record in the office action issued on dated 5/14/07.

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136 (a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
